

MALARIA CURED BY HEALTHY KIDNEYS

Carefully Avoid Liquid Kidney Alcoholic Remedies.

Use Kidney-Wort Tablets—No Alcohol or Poisons in Them.

Malaria and other poisoned conditions of the blood can be completely cured in one way only—through the kidneys.

If your kidneys are unhealthy your blood will be unhealthy. Strengthen and vitalize your kidneys and they will purify your blood and clear out the poisonous germs of malaria. But avoid liquid kidney remedies. The alcohol used in them as a preservative will keep your kidneys weak and irritated and your blood impure. Alcohol stiffens the joints in which uric acid crystals have settled, causing rheumatism, and prevents any remedy from dissolving the acid and carrying it away through the kidneys. Alcohol makes rheumatism worse and prevents its cure.

Dr. Pottinger's Kidney-Wort Tablets will cure any case of malaria. The tablets contain no alcohol. They quickly neutralize the poisons, cleanse and purify the blood and bring the kidneys back to their normal purifying power.

If you have backache, if your urine is painful in passing, or if compelled to get up during the night, or compelled to strain in voiding it, Kidney-Wort Tablets will surely restore your kidneys to perfect health.

Here is the case of John F. Howe, twenty-five years of age, in the milk contracting business. From continual carrying heavy cans of milk his back became lame and troubled him constantly until he took Kidney-Wort Tablets.

27 Eden St., Charlestown, Mass., May 2, 1903.

Gentlemen—I have used several boxes of Kidney-Wort Tablets and have found them all that you claim for them. They have had a most beneficial effect on my kidneys and bowels and have toned up my whole system. Yours very truly,

JOHN F. HOWE.

A simple test: Set aside your morning urine in a bottle for twenty-four hours. If a sediment collects at the bottom your kidneys are in trouble. Carry a little bottle of Kidney-Wort Tablets in your pocket. The handy tablet form makes it easy to take the remedy with regularity.

Hearing in Tiltman Case.

Columbia, S. C., June 25.—The hearing of the application for a change of venue in the case of James H. Tiltman, charged with the murder of N. G. Gouzales, was continued. Mr. Crawford, speaking for the state, made a point that fifty of the 250 affidavits introduced by the defense were signed by residents of Lexington who are naturalized in this (Richland) county.

Results of German Elections.

Berlin, June 25.—Unofficial returns of the recent election for members of the reichstag give the following figures: Socialists, 3,008,000 votes, an increase over the preceding general election of 900,000 votes, nearly 43 per cent; Center party, 1,752,816 votes, an increase of nearly 300,000 votes; National Liberals, 1,283,200 votes, an increase of 270,000 votes.

Saratoga Lake Rising.

Ballston, N. Y., June 25.—Because of the excessive rains of the past two weeks Saratoga lake is four feet above the average level for June. Several cottages on the west shore of the lake have floors inundated.

New French Gun.

M. Taritte, an engineer on the battle ship Canot, has invented a new gun for canoes, says a Paris cable dispatch to the New York World. The plans have been submitted to the marine minister. In the butt of the weapon is a magazine capable of holding twenty or twenty-four Lebel cartridges, according to the size. The new repeating system wholly modifies the mechanism of the cock and trigger.

If the Difference

between Spring Wheat and Winter Wheat flours were generally known, no intelligent family, able to procure the former, would fail to do so. Flour is the article most frequently used in kitchens, yet comparatively few people know much about it. To most housekeepers flour is flour. Those who buy their bread, cake and pastry ready made, are still further away from knowing what they are eating. The standard flour of the world, made of Hard Spring Wheat, is Pillsbury's Best. Sold by grocers everywhere.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're ill or will be. Keep your bowels open, and be well. Piles, hemorrhoids, violent constipation or diarrhoea, are dangerous. The smoothest, easiest, most perfect way of keeping the bowels clear and clean is to take

EAT 'EM LIKE CANDY

KEEP YOUR BLOOD CLEAN

SIR THOMAS IS HERE.

Sup Hunting Baronet a Passenger on the Oceanic.

J. P. MORGAN WITH HIM

King of Finance Comes Home to Settle Quarrels Within His Family of Trusts—Bruce Ismay to Aid in Shipping Trust Settlement.

New York, June 25.—J. Pierpont Morgan and Sir Thomas Lipton have reached New York on the White Star liner Oceanic. Owing to the thick weather the big vessel made extremely slow progress after passing Sandy Hook, but there was so much doing on board that the passengers did not notice the delay.

In the first place, there was Sir Thomas' fleet of cup challengers, with the attendant boats and the steam yacht Erin, in the Horseshoe. All the boats were decorated in honor of the occasion, and as the huge bulk of the Oceanic was seen across the narrow spit of sand that forms the Hook the whistles of the steam vessels were started.

Sir Thomas had been looking anxiously for the towering masts of his racers, and probably he was the first on board to make them out. When the salute of the craft inside the Hook was heard on board the Oceanic the passengers cheered the plucky Irish sportsman time and again.

At quarantine Sir Thomas was taken from the vessel by a committee composed of Adjutant General Corbin, John D. Crimmins, John Arbuckle, James H. Smith, E. C. M. Rand, M. Barrett and Henry Siegel. The committee had gone down the bay on A. C. Smith's steam yacht Privateer with the requisite permission allowing Sir Thomas to leave the ship before she reached her pier.

There were great cheering and tooting of whistles and ringing of bells as Sir Thomas went aboard the Privateer. He was informed that the yacht and the committee were at his disposal.

Mr. Morgan Not Displeased.

In the enthusiasm over the arrival of Sir Thomas Mr. Morgan was to some extent overlooked, which did not cause him any pangs. There awaits him in Wall street a number of strenuous tasks, not the least of which is the straightening out of the tangle in the shipbuilding combine. It is reported in Wall street that Mr. Morgan is the only man who can take hold of this matter and settle it satisfactorily.

Accompanied with this report is the time honored rumor that Mr. Schwab will hand to Mr. Morgan his resignation as president of the steel trust, and Mr. Schwab accompanies the rumor with his usual denial.

Then there is the breaking away of the Cunard line from the traffic agreement of the International Merchant marine, which Mr. Morgan will be asked to settle.

Accompanying Mr. Morgan on the Oceanic is J. Bruce Ismay, head of the White Star line, who will assist Mr. Morgan in adjusting the marine traffic war.

Wall street also understands that John D. Rockefeller requested Mr. Morgan to return to effect peace between the Rockefeller-Gould interests and the Pennsylvania railroad. Mr. Rockefeller is especially anxious for peace, and it is said that he has been unable to call Mr. Cassatt off.

It was reported that Mr. Morgan intended remaining in Europe this summer, but was called home to stop this fighting in his family of trusts.

General Corbin carried an invitation from the president to Sir Thomas for dinner at the White House Friday, but the president has added the clause that if Sir Thomas is unable to get to Washington Friday the president will be glad to have him to dinner at his home in Oyster Bay later.

It is not often a foreigner is unable to dine with the president, and it is seldom the president makes an invitation so flexible.

Circus Mobbed by Porto Ricans.

San Juan, Porto Rico, June 25.—A mob of about 300 persons at Camo attacked a circus which was giving a performance there. The employees defended themselves with guns until a sufficient force of police arrived at the scene of the disturbance and quelled the disorder. Ten persons were wounded, and many arrests were made. The riot was caused by the refusal of the circus management to issue complimentary tickets.

Released From Mexican Prison.

Tucson, Ariz., June 25.—Walter McCurdy, a young American lawyer, who has been in a Mexican prison at Hermosillo for the last six months on a charge of forging telegrams to secure possession of the Yaqui Copper company's stock, has been paroled by the governor of Sonora. It is claimed that McCurdy was arrested at the instance of President Harlow of the Yaqui company, for whom McCurdy was private secretary.

Capers.

Capers are the flower buds of a bush that grows in France, Spain and Algeria. The buds are picked by women and are placed in barrels of vinegar for preservation. An expert can gather forty-four pounds a day.

Cotton Jumps Again.

New York, June 25.—July cotton opened at 12.90 and quickly advanced to 12.97, a new high record on the present advance. After selling at 12.97 the next quotation was 12.85.

BIGGEST SHIPS AFLOAT.

Palatial Liners to Be Built by English and German Companies.

Ocean steamers greater than the Cedric or the Celtic of the White Star line, now the largest vessels afloat, are planned by the Hamburg-American and the Cunard lines, says the New York Press. Neither boat is intended for record breaking. The Cunard liner will make the run from the Irish coast to New York in seven and a half days and the Hamburg craft will have a speed of about seventeen and a half knots. It is in preparation for the accommodation of these and similar vessels that the New York dock department has asked the permission of the war department to build piers at least 1,000 feet long in the North river. The proposed boats could not be docked unless the line is extended.

The Cedric and the Celtic are 700 feet long, 75 feet wide and 49-13 feet deep. The new Hamburg-American liner will be 725 feet long, 77 feet wide and 50 feet deep, and have a mean speed of seventeen and one-half knots, as against sixteen for the White Star liners. The Cunard vessel will have about the same measurements and speed. The German craft will be able to carry twice as many guests as the Waldorf-Astoria holds and will have three promenade decks, one a roof garden; fifty baths, a gymnasium, three smoking rooms, two libraries and two parlors for women.

King Freed McHugh.

Dublin, June 25.—The release of P. A. McHugh, M. P., from Silgo Jail June 20 (where he had been confined since June 6 under a warrant issued by Judge Ross about a year ago for contempt of court in connection with the political comments of Mr. McHugh's paper, the Silgo Champion) appears to have been due to the initiative of King Edward, the lord lieutenant of Ireland, the Earl of Dudley, having first fruitlessly interceded with Judge Ross. The king's private secretary, Lord Knollys later wrote to the judge, expressing his majesty's wishes on the subject.

THINGS THEATRICAL.

Effie Shannon has been ill with an attack of nervous prostration brought on by overwork.

Patrice, for some seasons a popular vaudeville figure, is to star next season in the melodrama "Driven From Home."

Gus Weinberg and the Countess von Hatzfeldt are the latest additions announced for next season's cast of "The Storke."

"The Earl of Pawtucket" has been such a great success in New York that Manager Kirke La Shelle has decided to keep it on all summer.

Roselle Knott is to join the large group of new stars for next season, heading a company to play "When Knighthood Was In Flower."

George C. Boniface, Jr., has been engaged for next season to support Marie Cahill in "Nancy Brown," playing the part originated by Edwin Stevens.

Frank Tannehill is adapting from the German a play called "A Friend of the Family," to be sent out next season with George Farnum and Isabelle Urquhart in the leading roles.

Joseph Buckley, who has been manager for Oda Skinner for some years, will travel as his personal representative during the joint tour of that actor with Ada Rehan in Shakespearean repertory.

Easter.

Easter is the Sunday which follows that fourteenth day of the calendar moon which falls upon or next after the 21st day of March.

Blackheads.

Blackheads are a mass of congested matter and dust. Obviously their cure is in cleanliness and restored circulation of the blood vessels of the face. Nothing but friction and cleanliness will prevent their return.

IF YOU ARE SICK

And need medicine for your Kidneys, Liver, Bladder or Blood, get the Best.

Dr. David Kennedy's Favorite Remedy.

If you are suffering from kidney or bladder disease, the doctor asks: "Do you desire to urinate often, and are you compelled to get up frequently during the night? Does your back pain you? Does your urine sting when you pass it? Is there a scalding pain in passing it, and is it difficult to hold the urine back? If so, your kidneys or bladder are diseased."

Try putting some of your urine in a glass tumbler, let it stand twenty-four hours. If there is a sediment, or a cloudy, milky appearance, your kidneys are sick. Dr. David Kennedy's Favorite Remedy will surely relieve and cure the most distressing cases of these dread diseases, and no physician can prescribe medicine that equals it for kidney, liver, bladder and blood diseases, rheumatism, dyspepsia and chronic constipation.

Walter D. Miller, of Delhi, N. Y., writes:

"I suffered for years with kidney trouble and severe pains in my back, at times it was so bad I could hardly walk. My stomach also troubled me and I frequently had twinges of rheumatism. I suffered a great deal and received no benefit until I began the use of Dr. David Kennedy's Favorite Remedy. After taking it a short while it cured me."

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Randolph, N. Y.

Dr. David Kennedy's Golden Drops Instant Relief. Neuritis, Rheumatism, Sciatica, Burns, etc., 50c.

The following is one of a series of articles devoted to the coffee industry in Mexico, prepared especially for us by one of the most noted historical experts of the United States. In this series, as well as in our coffee cultivation, we have spared neither pains nor expense to get the best. The Mexican Consul to the United States, now located in Boston, recommends this series as interesting and instructive. On account of its educational value we suggest that parents see that this series is read by their children.

From Plantation to Cup.

Chapter II.

Food For Our Thoughts Concerning Food For Our Appetites.

"Now bring the cup,
And fill it up
With Coffee from Ubero!"

There are many coffee plantations in Mexico, some of which are only one acre in extent. The Consolidated Ubero Plantations Company have a coffee plantation of 6,000 acres, and the management control by virtue of their direct money holdings, 20,000 acres more—and what indicates their ability—more emphatically their executive ability—is the fact that they manage 39 other plantations on a basis that enables them to control the coffee output. The work on these great coffee gardens is done best by the native Indians, able and faithful workers. Their labors begin at sunrise and end at sunset; and they ask only forty-five cents for their day's work.

[To be continued.]

Cheap labor and cheap shipping facilities thus allow Mexican coffee raisers to slight no detail in the preparation of their coffee for the market. That is why you can get **UBERO BRAND SELECTED COFFEE** at 35 cents a pound. This Mexican coffee will delight you. Its fragrant aroma, its absolute purity and its delicious taste will lead you to continue using it after getting the first can from your grocer. **UBERO BRAND SELECTED COFFEE** goes to the ovens in a state of perfect cleanness. At our roasting establishment the perfect beans are sealed in air-tight cans. Your grocer will sell you one of these pound cans for 35 cents, with the coffee ground or unground as you wish. Buy a can of **UBERO BRAND** and learn why the Mexicans drink so much coffee. **THE PRICE IS ALWAYS 35 CENTS A POUND.**

SOLD BY ALL FIRST-CLASS GROCERS.

CROWN, ROASTED AND CANNED BY

The Consolidated Ubero Plantations Company,

COFFEE DEPARTMENT, 36-38 FULTON STREET, BOSTON.

ESCAPE FROM TOMBS.

Two Convicts Tunnel Out of New York City Jail.

New York, June 25.—There was a sensation among the Tombs prison officials at the early roll call at the startling discovery that two of the prisoners, men under conviction and awaiting removal, had tunneled their way to freedom during the night. Investigation showed that the escape was one of the boldest and most cleverly executed in the history of the new prison building.

The prisoners were Matthew Callahan, thirty-one years old, formerly of 116 West Fourteenth street, and Robert Booth, twenty-one years old, of 122 East Twenty-fifth street.

With outside assistance, according to the belief of Warden Van De Carr and Commissioner of Corrections Hynes, the men tunneled their way from the jail yard, under the woman's prison, the oldest part of the present structure, emerging in Leonard street at the base of the prison walls. There they discarded their prison clothing, substituting therefore clothing furnished them by their confederates, and made good their escape.

The outside confederates, Commissioner Hynes thinks, were ex-convicts now employed by the contractors who are engaged in the work of demolishing the walls of the old prison. The presence of large piles of debris within and without the walls made it possible to conceal the work from the eyes of officials.

CHINESE TRADE TREATY.

Its Consumption Blocked by Refusal to Open Ports.

Washington, June 25.—The negotiations with China for a trade treaty have reached a critical phase, growing out of the demand of the United States and Japan for the opening of ports in Manchuria. The Russian government has professed to entertain no opposition to this demand, but the Chinese commissioners now take the ground that the ports mentioned in the demands—Mukden, Takushan and Harbin—will be opened to foreign trade not now, but in the future, when trade necessities seem to require it.

Therefore, they propose to let this matter lie in abeyance and conclude the trade convention without this section. The United States refuses to accept the suggestion; Japan takes the same position; the English influence leans in that direction, and the negotiations are deadlocked pending the contrivance of some means by the three powers named to bring some pressure upon China.

Vanilla Sauce For Puddings.

Beat one egg and stir half a pint of milk into it. Add sugar to taste and five or six drops of vanilla. Put into a saucepan over the fire and stir one way till it begins to thicken. Do not let it boil.

A Hot Place.

At Whakarewarewa, New Zealand, there are geysers, hot springs, boiling pools, mud volcanoes and hot waterfalls.

SOLDIERS IN RICHMOND.

Militia Captain Shot by Street Railway Strikers.

Richmond, Va., June 25.—A thousand troops are under arms here and detachments are distributed at the various power houses and barns within the city limits. Cars will be run with four soldiers on each. One of the barns being located in the country and the sheriff having refused to ask military aid, claiming he could give ample protection, County Judge Wickham called for troops over his head.

While troops were attempting to move the first cars from the east end barns a mob assembled and torpedoes the truck, and Captain Skipwith of C company, Seventy-first regiment, was shot in the leg. There was no return fire.

Bold Philadelphia Robber.

Philadelphia, June 25.—Charles G. Fisher, a furniture dealer of 1165 South Eleventh street, and his clerk, James K. Halliwell, were held up in Fisher's store by three thieves. The men entered the store on the pretense of buying furniture. They drew revolvers, tied the two men to a chair and table and then proceeded to rob Fisher and the clerk. Fisher's loss is about \$200. The men escaped.

General Manning Safe.

Aden, Arabia, June 25.—The anxiety regarding General Manning's force in Somaliland, east Africa, has been allayed by the receipt of the news that a flying column from Berbera got in touch with him at Dambot, where Manning arrived without encountering any opposition.

Coffin Plate Factory Burned.

Taunton, Mass., June 25.—The coffin plate factory of Eldridge & Co. of this place has been destroyed by fire, causing a loss of \$50,000, on which there was \$17,000 insurance.

Riviera Flowers.

The Riviera yearly exports flowers to the value of \$3,000,000. Two-thirds of these go to England.

Special Flood Legislation.

Topeka, Kan., June 25.—The Kansas legislature has met in special session to remedy so far as possible distressing conditions brought about by the recent flood. Legislation which will enable the state to rebuild bridges which were swept away is especially needed. The immense business between Kansas City, Mo., and Kansas City, Kan., will be curtailed to the vanishing point until bridges are rebuilt. In some counties those charged with the responsibility of repairing flood losses have found themselves helpless under present laws to meet the unusual conditions.

Seventeen Murderers Await Death.

Albany, N. Y., June 25.—There are now seventeen murderers awaiting execution in this state. The appeal of Mrs. Kate Taylor, the Sullivan county murderess of her husband, which acts as a stay of execution, removes one of the six at Clinton whose execution was set for the week of July 4. For the same week is set the execution of the Van Wormer brothers, whose appeal for executive clemency has received as yet no response from Governor Odell. The other eleven executions are assigned for dates extending over several weeks.

Change in Yacht Race Dates.

New York, June 25.—The regatta committee of the New York Yacht club announces that the dates for the special races of the yacht Constitution, Columbia and Reliance at Newport have been changed and finally fixed as follows: June 29 and 30 and July 1, 2, 3 and 4. As planned originally the series was to end July 8. These races will not be the official trials.

Sentence of Death Affirmed.

Albany, N. Y., June 25.—The court of appeals has affirmed the sentence of death of Clarence Egnor, a convict in Auburn prison, who killed Archibald W. Benedict in the workshop of the prison Jan. 9, 1902. Egnor's defense was insanity. Judge Vann dissents.

After Baby Comes

there is nourishment for both convalescent mother and nursing child in

ANHEUSER-BUSCH'S

Malt-Nutrine

It is an already digested food easily retained by the most delicate stomach. It restores health and strength—supplies the nutriment needed—builds flesh and tissue.
